Strategic Framework 2017 – 2020: Trade Facilitation

Recommendation towards Certification Body

Focus Activities 2019

1

Road Safety Training

2

Eco-Driving Training

3

**Training on Customs Formalities
Process Improvement**

GMS-FRETA (Thailand) Business Model Canvas

Key Partners

- GMS-FRETA (CLMV & China)
- Freight Forwarders
- Logistic Associations
- Logistics Companies
- ADB*
- UNESCAP*
- Mekong Institute
- GIZ
- NESDC*
- Ministry of Transport
- Thai Customs
- Thai Bankers' Association
- Board of Trade of Thailand
- The Federation of Thai Industries
- NEDA*
- ITD*
- DSD*

Key Activities

- Road Safety Training
- Eco-Driving Training
- Customs Formalities Process Improvement
- Q-Mark for GMS
- GMS-FRETA Cross Border Driving License
- CBTA Implementation

Key Resources

- GMS-FRETA Committee
- Human resource
- GMS Logistics Database

Value Proposition

For GMS-FRETA (Thailand)

- Expand collaborations
- Gain members
- Be recognized

For Members

- Knowledge on road safety, eco-driving and customs formalities process
- Expand networks on logistics
- Risk and cost reduction for cross border
- Facilitate customs formality for cross border

Customer Relationships

- Community Membership
- Assistance & Consultant
- Information sharing
- Business Development

Channels

- Facebook
- Website
- Email
- Event and activities
- Dissemination

Customer Segments

- Freight Forwarders
- Logistics Associations
- Transport companies
- Logistics Operator

Cost Structure

- Management fees
- Training preparation
- Travel expense

Revenue Streams

- Membership fees
- Training fees
- Project fund
- Sponsor from Development Partners
- Service fees

- Asian Development Bank (ADB)
- United Nations Economic and Social Commission for Asia and the Pacific (UNESCAP)

Train on April 25-27, 2017

Highlight Activities

Promote Road Safety Standard for Carriers

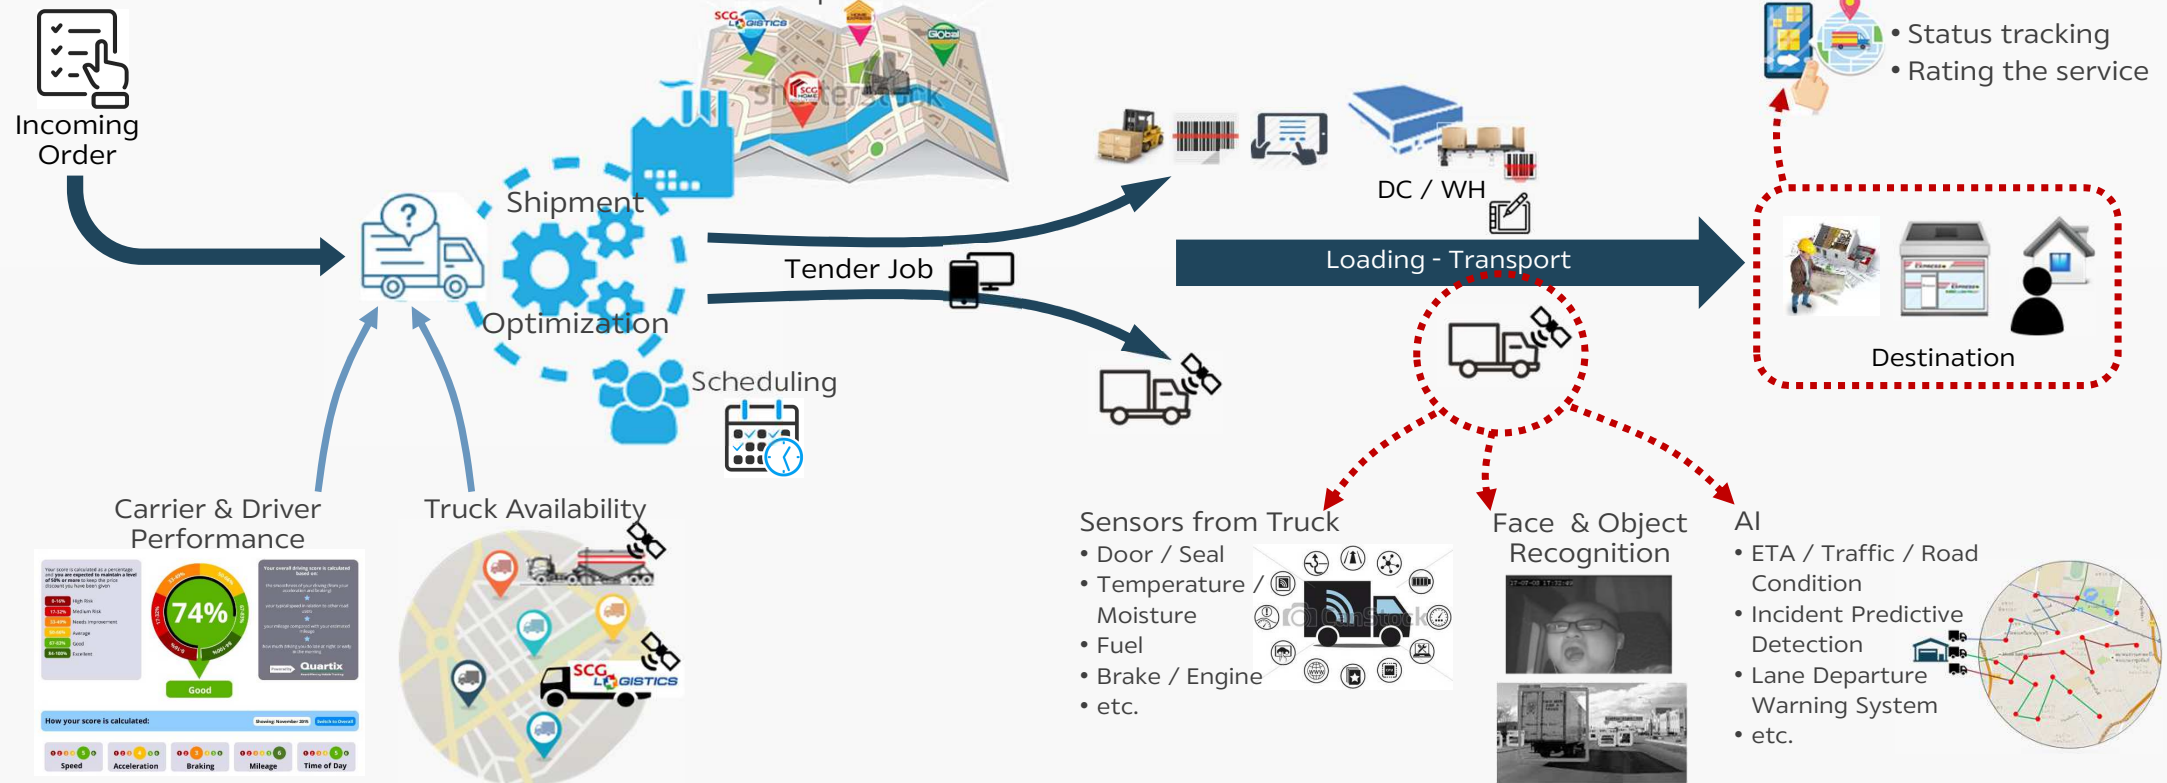

Carrier Audit : The safety audit program focus on organization, safety, driver and vehicle management to leverage their system to meet with the standard.

Technology will transform we do logistics

Control Tower

End-to-End Visibility ; Real-Time Tracking

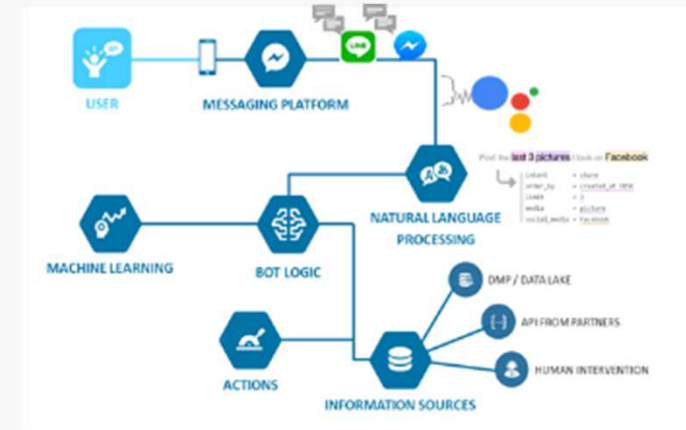

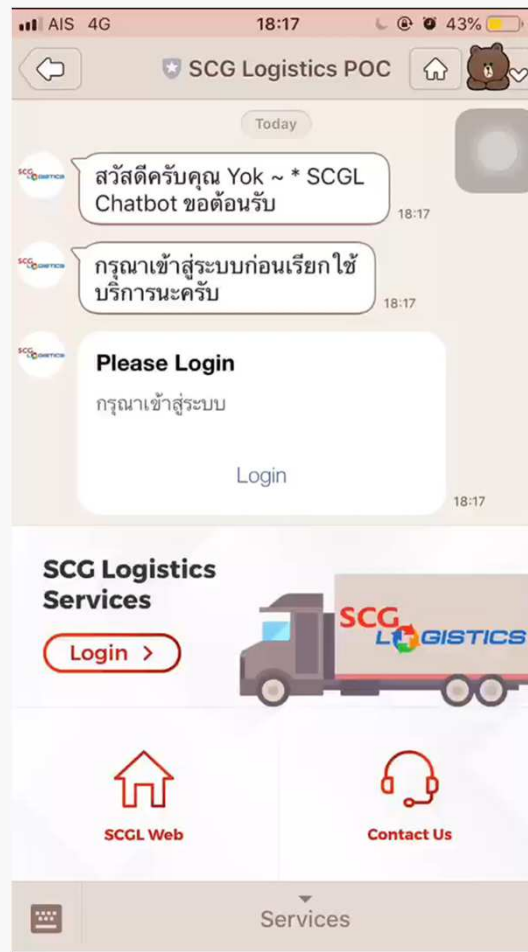

Technology will transform the way we work

Increase operation efficiency and introduce new customer experience

Chatbot AI

Why Chatbots ?

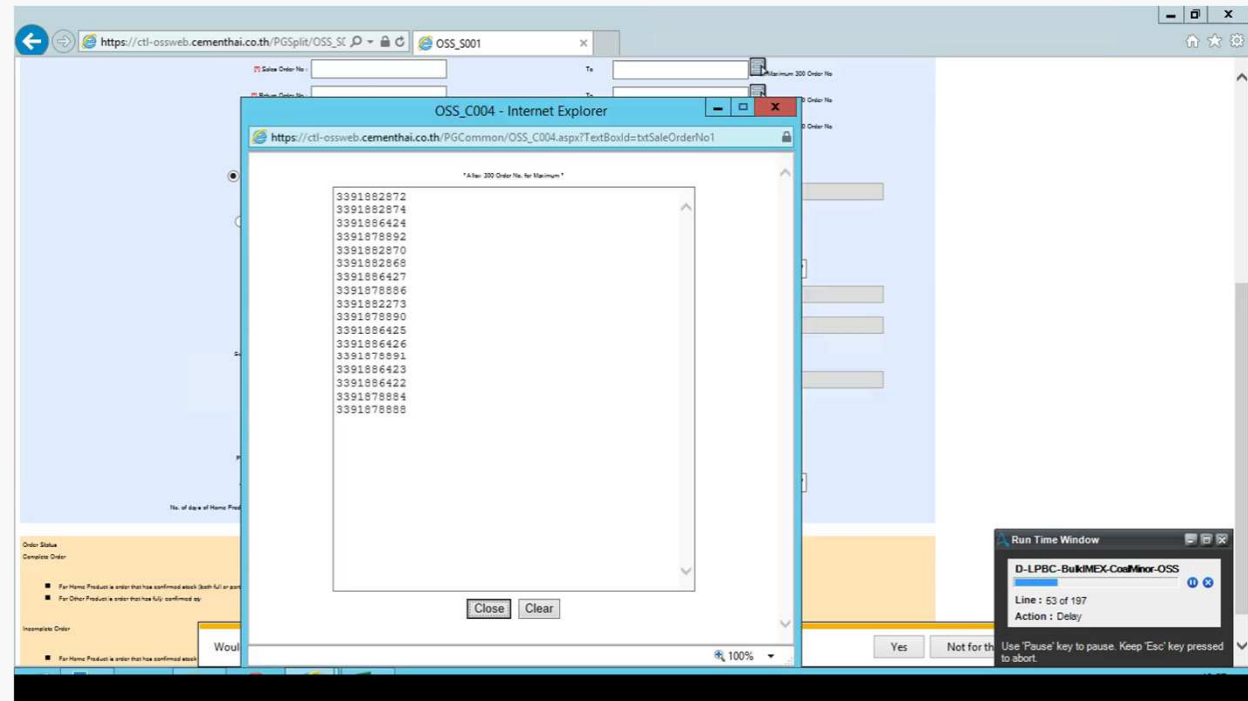

Technology will transform the way we work

Increase operation efficiency and introduce new customer experience

Robotics Process Automation (RPA)

Practice of automating routine business practices with "Software Robots" that perform tasks automatically

Technology will transform the way we work

Increase operation efficiency and introduce new customer experience

Object Recognition

Computer technology related to computer vision and image processing that deals with detecting instances of semantic objects of a certain class (such as humans, buildings, or cars) in digital images and videos

Technology will transform the way we work in warehouse

Increase operation efficiency and introduce new customer experience

SMART Warehouse

Completely autonomous facilities where robots work alone in the dark, completing tasks formerly done by human
